#10

INFORMATION DISCLOSURE CITATION (Use several sheets if necessary) PTO Form 1449				Attorney Docket 044574-5045-US		Application No. 09/939,709	
				Applicants: Roland E. BARON et al.		Page of 1	
				Filing Date: August 28, 2001		Group: 1623	
U.S. PATENT DOCUMENTS							
Initial		Patent No.	Date	Name	Class	SubClass	Filing Date
FOREIGN PATENT DOCUMENTS							
		Document No.	Date	Country	Class	SubClass	Translation
OTHER DOCUMENTS (Including Author, Title, Date, Pertinent Pages, etc.)							
7W		Chen, J. et al., Transgenic animals with inducible, targeted gene expression in brain. <i>Mol. Pharmacol.</i> 54 , 495-503 (1998).					
		Chen, J. et al., Chronic Fos-related antigens: stable variants of Δ FosB induced in brain by chronic treatments. <i>J Neurosci</i> 17 , 4933-4941 (1997).					
		Grigoriadis, A. et al., Osteoblasts are target cells for transformation in c-fos Transgenic Mice. <i>The Journal of Cell Biology</i> 122 , 685-701 (1993).					
		Gruda, M. C. et al., Expression of FosB during mouse development: normal development of FosB knockout mice. <i>Oncogene</i> 12 , 2177-2185 (1996).					
		International Search Report					
		Kelz, M. B. et al., Expression of the transcription factor Δ FosB in the brain controls sensitivity to cocaine. <i>Nature</i> 401 , 272-276 (1999).					
		Lee, K. et al., Parathyroid hormone induces sequential c-fos expression in bone cells in vivo: <i>in situ</i> localization of its receptor and c-fos messenger ribonucleic acids. (Abstract) <i>Endocrinology</i> 134 (1), 441-450 (1994).					
		Mathieu E. et al, Establishment of an osteogenic cell line derived from adult mouse bone marrow stroma by use of a recombinant retrovirus, <i>Calcif Tissue Int</i> 50 , 362-371 (1992).					
		Nakabeppu, Y. et al., A naturally occurring truncated form of FosB that inhibits Fos/Jun transcriptional activity. <i>Cell</i> 64 , 751-759 (1991).					
		Nestler, E. J. et al., DeltaFosB: a molecular mediator of long-term neural and behavioral plasticity. <i>Brain Research</i> 835 , 10-17 (1999).
